ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 2/85.
Exemption—Ministry of Natural Resources—MNR-11/9.
Made—December 13th, 1984.
Approved—December 13th, 1984.
Filed—January 2nd, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-11/9

Having received a request from the Minister of Natural Resources that an undertaking, namely:

Forest management by the Ministry of Natural Resources on Crown land presently included within forest management units and associated tree nurseries,

be exempt from the application of the Act for an additional period pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

A. The Crown and the public will be damaged by the loss of benefits anticipated to result from the forest management plans which are scheduled to proceed within the period of the exemption.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The Ministry of Natural Resources is undertaking measures to implement public participation in respect to the approval of Forest Management Agreements, Forest Management Plans and Operating Plans, including road plans prescribed by these, and in respect to aerial spraying of pesticides for forest management purposes.

B. The undertaking is an ongoing activity of the Ministry of Natural Resources and is an integral part of the economy of the Province. Since the exemption for this undertaking under Exemption Order MNR-11/8 which was filed as O. Reg. 442/84, will expire on December 31, 1984, the application of the Act before December 31, 1985 in the absence of an approval under the Act would result in the halting of forest management by the Ministry of Natural Resources on Crown land. Therefore, the interference which would be caused would be undue.

C. The Ministry of Natural Resources has completed a draft of an environmental assessment for forest management and is continuing a process of public consultation to allow interested parties to provide input to that environmental assessment before a formal submission for approval under the Act is made.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources shall consult the public and Government agencies at an early stage of the preparation of forest management plans and operating plans, as well as a minimum of thirty days prior to the proposed plan being approved by the Ministry of Natural Resources in accordance with the *Crown Timber Act*.

2. Before December 31, 1984, the Ministry of Natural Resources will submit to the Environmental Assessment Branch a description of the procedure of when and how the district offices of the Ministry of Natural Resources will consult with the public and Government agencies in meeting Condition #1. If these procedures change during the period in which the order is in effect, the Ministry of Natural Resources will revise its description and advise the Environmental Assessment Branch.

3. For the period that this exemption order is in force, the Ministry of Natural Resources shall plan primary forest access roads on Crown Management Units including bridges and ancillary facilities associated with these roads in accordance with the approved Class Environmental Assessment for "Access Roads to MNR Facilities". This procedure shall give emphasis to the identification of alternative road locations and evaluation of the environmental effects of alternatives considered and shall provide a rationale for the alternative road location which is selected.

4. At least 30 days prior to the anticipated aerial spraying of herbicides or insecticides for forest management purposes, the Ministry of Natural Resources shall notify the public, the appropriate Regional Office of the Ministry of the Environment and the Environmental Assessment Branch of the project. During this period a project description shall be made available for public inspection at the appropriate district office of the Ministry of Natural Resources. Where there is a newspaper or radio or television station serving the area concerned, the public notice shall be in the form of a paid public notice in one or more of such media. An illustrative format which may be used for a printed notice is attached as follows:

Illustrative Format for Public Notice for Aerial Spraying of Herbicides and Insecticides

As part of the Ministry of Natural Resources' ongoing program to regenerate and protect our forests, selected stands (specified area) will be sprayed with an (insecticide or herbicide) to control (competing vegetation or name of insect) starting on or about (date).

Further details about this program, including specific locations, are available from the (District, Regional or Main) Office of the Ministry of Natural Resources.

5. The Ministry of Natural Resources shall prepare a letter for each plan prepared pursuant to this exemption and send it to the Environmental Assessment Branch for inclusion in the Public Record. The letter shall describe.

(*a*) the name of the Forest Management Unit (FMU) or Forest Management Agreement (FMA) for which the plan is being prepared;

(*b*) a map of the area covered by the plan being prepared for the FMU or FMA;

(*c*) the duration of the plan;

(*d*) the date(s) of public notification;

(*e*) the comments received from the public and other government ministries/agencies; and

(*f*) the proponent's responses to the comments received.

This shall be submitted not later than thirty days prior to approval of the plan.

6. By February 15, 1985, the Ministry of Natural Resources shall provide the Environmental Assessment Branch with a list of all plans currently under preparation or scheduled to commence preparation during the term of this Order with the scheduled approval dates of each plan specified. Any revisions will be reported quarterly to the Environmental Assessment Branch.

7. Where the carrying out of the undertaking involves some activity for which an environmental assessment has been done and an approval to proceed received or an exemption has been granted, that activity is not exempt under this Order but shall be carried out in accordance with the environmental assessment and approval to proceed, or the conditions of exemption whichever is applicable.

8. If a class environmental assessment for forest management has been submitted by the Minister of Natural Resources before December 31, 1985, this Order shall remain in effect until a decision on approval is made with respect to the class environmental assessment but if such an environmental assessment is not submitted, this Order shall cease to apply on December 31, 1985. ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 3/85.
Exemption—Ministry of Natural Resources—MNR-44.
Made—December 13th, 1984.
Approved—December 13th, 1984.
Filed—January 2nd, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-44

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activities of,

(*a*) designating, by regulation under the *Provincial Parks Act*, areas in Ontario as provincial parks;

(*b*) acquiring property therefor; and

(*c*) managing on an interim basis recommended and new provincial parks (prior to the approval and implementation of a park management plan) consisting of activities to protect park values; managing of uses and activities, including the uses recommended in the "Ministry of Natural Resources Backgrounder—Land Use Guidelines"; and including the activities of developing new facilities,

in respect of the recommended provincial parks listed in Condition No. 12 below,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The Ministry of Natural Resources (MNR) will be damaged by the interference with its ongoing programs associated with outdoor recreation.

B. The public will be damaged by the loss of anticipated outdoor recreational opportunities and tourism benefits and areas will be denied the protection afforded by the *Provincial Parks Act*.

C. The MNR is preparing a Class Environmental Assessment for Provincial Park Management and Development. The completion of and pre-submission consultation for the document would be hampered by the requirement to seek separate approval for the activities specified within this undertaking.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The identification of park candidates has been ongoing through the MNR Parks System Planning, and was the subject of the public Report of the Task Force on Parks System Planning.

B. The selection of recommended park candidates incorporated input from the general public and interest groups as a result of the MNR District Land Use Planning.

C. The proposal to establish the recommended park candidates has received strong public support.

D. As documented in the supporting material filed with this exemption order, the parks listed in Condition 12 (the "Parks") were selected from 245 alternative candidates as a result of the MNR District Land Use Planning and public consultation. During the planning process several candidates underwent boundary modifications, and decisions were made to permit a significant number of existing uses to continue in order to minimize potential socioeconomic impact.

E. The interim management of the Parks under this Order will be carried out in a manner consistent with the conservation, protection and wise management of the environment.

F. The conditions of this exemption provide for local public notice and inspection of completed interim management statements for recommended or new provincial parks.

G. Approved MNR class environmental assessments will be followed for applicable projects carried out for interim park management.

H. The Minister of Natural Resources has developed a draft Class Environmental Assessment for Provincial Park Management and Development which will serve as the basis for pre-submission consultation. The proposed class environmental assessment provides for public input during the preparation of park management plans.

This exemption order is subject to the following terms and conditions:

1. This exemption order does not apply to any plan or project for interim management,

   (*a*) where the plan or project is likely to affect the habitat of a species designated under the *Endangered Species Act* (except for protecting the species); or

   (*b*) which would constitute a major new addition by MNR to park facilities.

2. This exemption order does not apply to any plan or project for interim management where the plan or project includes the disposition of property or interests in property to the private sector for,

   (*a*) the development of a new commercial recreation facility or the upgrading of an existing commercial recreational facility;

   (*b*) mineral exploration or development,

   both of which will be done pursuant to Exemption Order MNR-26/4, as amended from time to time.

3. The MNR will provide the Environmental Assessment Branch as well as the appropriate regional office of the Ministry of the Environment with lists of plans and projects (e.g. annual work plans) proposed under the interim management of the Parks no less than 30 days prior to the implementation of any plan or project. The lists will specify the nature, size and location of all plans and projects and will also specify which plans or projects will be carried out pursuant to another exemption order. The MNR will notify the above offices of significant revisions to the lists no less than 30 days prior to the implementation of any such revisions to plans or projects. Copies of project plans will be made available to the public for inspection at the appropriate district office of the MNR.

4. The local public will be informed of the completion of interim management statements. Interim management statements will be maintained for public inspection at the appropriate district office of the MNR. Lists of completed statements will be maintained in all the MNR regional offices and its main office. Individual statements will be made available for inspection upon request.

5. Any activity exempt under this Order that would be approved under a MNR class environmental assessment, except that the approval does not apply to provincial parks, shall be carried out in accordance with the appropriate class environmental assessment procedures, as though the activity were not in a provincial park.

6. Where the Minister of the Environment determines, after consultation with the Minister of Natural Resources, that a proposed plan or project,

   (*a*) may generate an unusual amount of public or Government concern; or

   (*b*) may have unusual or significant potential environmental impacts not adequately treated in the pertinent planning exercise; or

   (*c*) would otherwise warrant an environmental assessment,

   the Minister of the Environment may, by written notice to the Minister of Natural Resources, direct that an environmental assessment be prepared for the plan or project in which event the plan or project will not be exempt under this Order.

7. Where the Minister of the Environment has given written notice to the Minister of Natural Resources that he is considering the application of Condition 6 to a plan or project, the MNR shall not implement the plan or project until 45 days have elapsed from the giving of notice or the Minister of the Environment gives written notice to the Minister of Natural Resources that it is not proposed to require an environmental assessment.

8. During the period covered by this Order, the MNR will continue to comply with the *Environmental Protection Act* and the Provincial Parks Program shall be planned, implemented and managed according to the following provincial parks' guidelines and policies:

   Ontario Provincial Parks Policy

   Ministry of Natural Resources Backgrounder Land Use Guidelines

   Ontario Provincial Parks Planning and Management Policies

   Guidelines for Preparing Interim Management Statements (1984)

   Provincial Park Management Planning Guidelines—1983

   Park Management and Operating Plan Format

   Landscape Design Principles and Guidelines

   Visitor Services Interim Policy.

9. The guidelines and policies cited in Condition 8 and any revisions or additions to these guidelines and policies will be made available by the MNR for public inspection upon request and will be forwarded to the Environmental Assessment Branch of the Ministry of the Environment.

10. The MNR will notify, individually, each landowner whose property would abut or would be surrounded by a Park. Such notification will occur prior to either designation by regulation of the area under the *Provincial Parks Act*, or the initial invitation for public consultation in the management planning process, whichever occurs first.

11. The MNR may combine any of the recommended Parks with each other or with existing parks or exclude any lands currently scheduled for inclusion in a Park. However, before the MNR increases significantly the acreage of a Park or removes lands from one of the Parks after it has been established or makes significant changes to recommended uses, it shall give at least 30 days prior notice in writing of the proposal to do so to the Environmental Assessment Branch of the Ministry of the Environment.

ASSESSMENT ACT

O. Reg. 74/85.
Equalization of Assessments made under Section 63 of the Assessment Act.
Made—February 8th, 1985.
Filed—February 8th, 1985.

REGULATION MADE UNDER THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE UNDER SECTION 63 OF THE ASSESSMENT ACT

1. The equalization of assessments made under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 63 of the Act, will be equitable one with the others in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1984 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1984 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1984 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1984 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1984 against the total assessment for that prescribed class of real property in that municipality.

2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1980, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.

3. The total assessment, including assessments made under section 32 or 33 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.

4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of the prescribed class of real property by reason of assessments made under section 32 or 33 of the Act. O. Reg. 74/85, s. 1.

2. This Regulation applies to the municipalities named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in each such municipality for the year 1984 for taxation in the year 1985. O. Reg. 74/85, s. 2.

3. For the purposes of this Regulation, the real property situate in each municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedule for that municipality. O. Reg. 74/85, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 74/85, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed either,

(*a*) as residential and comprising not more than six residential units, including vacant land municipally zoned principally for residential development described in this clause; or

(*b*) as seasonal residential including vacant land zoned principally for this purpose.
